Experience

Software Engineering Apprentice

General Assembly - New York, NY

Feb 2022 - May 2022

- Participated in the in-person Software Engineering Immersive Program with General Assembly, gained hands-on experience in building full-stack web applications using various technologies and frameworks.
- Utilized **HTML**, **CSS**, and **Javascript** to develop user interfaces for web applications as well as worked with **React.js** to build single-page applications and create reusable components for easy maintenance.
- Developed server-side applications using **Python**, **Node.js** and **Express.js**.
- Implemented **RESTful APIs** to communicate with the front-end/client side.
- Worked with **MongoDB** and **PostgreSQL** to design and implement database schemas.

Fire and Life Safety Director

TRG Group - Queens, NY

July 2020 - Feb 2022

- Instructed and implemented the Comprehensive Fire Safety and Emergency Action Plan/Evacuation Plan in the event of an emergency.
- Developed, implemented and maintained fire safety plans and procedures in compliance with local, state, and federal regulations.
- Conducted regular fire drills and other emergency preparedness exercises to ensure building occupants were aware of emergency procedures.
- Ensured all fire safety equipment including fire alarms, sprinkler systems, and fire extinguishers were properly maintained, tested, and inspected on a regular basis.
